Australian Immunisation Register

Immunisation history statement

The [Australian Immunisation Register](#) records vaccinations given to people of all ages in Australia.

Important note:

Immunisation requirements apply for some family assistance payments. You may need to provide your child's Medicare details, so that we can link your child's Centrelink record to their Australian Immunisation Register record. To do this, and other Centrelink business, go through myGov to your Centrelink online account or by using the Express Plus Centrelink app.

Immunisation History Statements you can view

You can view the immunisation history for the people listed below.

People aged 14 years of age or older will need to create their own Medicare online account to view their statement.

Note: The Australian Immunisation Register will only disclose the immunisation history statement of a child under the age of 14 to a parent (who has parental responsibility) of the child or a legal guardian of that child.

Select the person whose Immunisation History Statement you wish to view and confirm the declaration prior to selecting 'View statement'.
