

Claim for External Breast Prostheses Reimbursement Program (NH005)

When to use this form

Use this form if you have paid for a new or replacement external breast prosthesis **since 1 July 2008**.

External Breast Prostheses Reimbursement Program

The Australian Government provides a reimbursement of up to \$400 for each new or replacement external breast prosthesis for women who have had breast surgery as a result of breast cancer.

Who can claim

All women who have had breast surgery as a result of breast cancer, are permanent residents of Australia and are eligible for Medicare, can claim the reimbursement. No timeframes apply on when the breast surgery was performed.

If you get financial assistance from the Department of Veterans' Affairs (DVA), you should claim your entitlement through DVA.

Executors or administrators of deceased estates may claim reimbursement for purchases not yet claimed. Documentation identifying the person as the executor or administrator must be provided to the Australian Government Department of Human Services with this claim (if not previously provided).

How often you can claim

You can claim the reimbursement for prostheses bought **every 2 years** from the date of your last purchase. This timeframe applies regardless of the amount of your last reimbursement.

If it has been less than 2 years since you bought a prosthesis, you can only claim for a replacement if it is for a medical reason. The claim must include a letter from your doctor or other health professional explaining the medical reason why you need a new prosthesis.

You cannot claim a replacement prosthesis, bought less than 2 years after your last purchase, for:

- wrong choice or change of mind
- incorrect fitting
- faulty or damaged prostheses.

If you have one of these issues, contact your prosthesis supplier.

How much you can get back

A reimbursement of up to \$400 for each new or replacement external breast prosthesis can be claimed, depending on the cost of the prosthesis. This limit applies for each prosthesis for each breast.

If you get a refund from another source

If you have private health insurance, you will need to claim any applicable refunds from them before seeking a reimbursement from us.

If you get a refund for your prosthesis from your private health insurer or another source and the refund is less than the full price paid, we may pay the difference. This is up to the \$400 limit for each prosthesis.

Examples: If you have bought a single prosthesis for \$130, your reimbursement is \$130*.

If you have had a double mastectomy and have bought 2 prostheses, your reimbursement may be up to \$800*.

If you have bought a prosthesis for \$350 and received a refund of \$200, your reimbursement will be \$150.

* Subject to other refunds or financial assistance paid to you.

What you cannot claim

Bras, post breast surgery swimwear or internal prostheses.

How we will pay you

All reimbursements are made by Electronic Funds Transfer (EFT) to your nominated bank account. We will send a statement to your nominated postal address showing the amount paid into your bank account.

Most claims are processed within 10 business days after receiving the claim.
